

Global Minerals & Industry Risk Management Course

September 26—30, 2011, Sudbury, Ontario

World-class Training for the Minerals Industry

Recognizing that safety is one area where companies can and should collaborate, Anglo American is making their highly-acclaimed and award-winning education program available to the whole industry to contribute to a systemic change in safety and risk management.

This course is the Global Minerals Industry Risk Management course, G-MIRM. It is aimed at anyone with a potential or actual responsibility for defining and managing site, operation or discipline approaches to risk management including General or Mine Managers, Superintendents, Plant Supervisors, etc.

Led by the University of Queensland, a global network of universities in major mining regions has been established to deliver this world-class program. In Canada, the course will be offered by the Robert M. Buchan Department of Mining at Queen's University and Laurentian University's MIRARCO.

Location

Willet Green Miller Centre Auditorium
933 Ramsey Lake Road, Sudbury Ontario

Dates

Monday, September 26 to Friday, September 30, 2011

Who should attend?

- ◆ At a mine or project: General Managers, Mine Managers, Section Managers, Superintendents, Mine Captains, Plant Supervisors, Senior Technical Staff, Safety Managers and Safety Practitioners.
- ◆ Within a Division or Corporate Structure: Technical and Functional Staff (e.g. Rock Engineering, Ventilation, Safety, Human Resources, Finance & Procurement).
- ◆ Long term / high hazard contractors at the appropriate level.
- ◆ Those involved in regulating the mining sector.

MIRARCO—Mining, Innovation, Rehabilitation and Applied Research Corporation, founded in 1998, is a not-for-profit applied research and technical service company formed through collaboration between Laurentian University and the private and public sectors. MIRARCO serves as an innovation bridge between researchers and industry.
